Any reported unauthorized solicitations for information are grounds for disqualification of the bid.

#### **II.1.7. Catalog Updates and Access**

Awarded Vendors should provide online access to the catalog(s) used to bid this contract. During the contract period, Vendors should maintain access to the current catalog(s) for pricing of their respective manufacturer's resources.

#### **II.1.8. Equipment Terms and Conditions**

State shall have the authority [Alabama Code - §41-4-287: Trade-In of Equipment] to allow the trade-in of telecommunications equipment the value of which may be credited against the cost of replacement equipment purchased in accordance with Alabama competitive bidding laws. This authority may be exercised with the approval of State purchasing agent.

Used, like-new, or refurbished equipment (with warranty) may be accepted for new installations or additions to existing systems, with written approval from State. Refurbished or remanufactured equipment may be used to repair defective equipment that is under a warranty or maintenance agreement, provided that new equivalent equipment is no longer available.

#### **II.1.9. Disclosure of Bid Contents**

Upon submission, all bids become the property of State. Upon award, all contract information contained in the bid becomes public information.

#### **II.1.10. Warranty Requirements**

All warranties must be passed on to contract user(s) at no additional cost and must provide equal to or greater than manufacturer's warranty. A warranty will begin upon acknowledgement of Vendor equipment delivery or start date of services, per the Statement of Work (SOW). Upon request, the awarded Vendor must also provide Technical Support Services at no additional charge to work directly with contract user's staff to troubleshoot and resolve issues in a timely manner. Vendor also must provide

unrestricted access to technical information needed for equipment and software purchased as well as access to configuration, installation, troubleshooting, and management tools. The warranty must provide software upgrades for no additional charge. If the warranty exceeds this description, then Vendor also must submit with their bid, what the basic warranty includes. State will not incur any shipping or additional costs associated with return and repair of warranted products or services.

#### **II.1.11. Maintenance Requirements**

Vendor must provide and adequately maintain a full 24-hour support capability for the life of the contract. A brief description of the Vendor's complete support plan must be submitted with the bid.

#### **II.1.12. Vendor Employee Conduct and Security Requirements**

Vendor is responsible for the legal and professional conduct of its employees. Failure to meet the requirements of the Statement of Work or failure to adhere to all local, State, and Federal laws may subject the employee and Vendor to contract cancellation and other penalties as determined by State and legal authorities. All Vendor employees and representatives will abide by all current and future State security policies as posted at: [www.cybersecurity.alabama.gov](http://www.cybersecurity.alabama.gov). Any exceptions to the policies must be obtained in writing from State. Additionally, employees must speak and understand the English language at a level of proficiency necessary to perform the assigned functions and services associated with any part of this ITB.

#### **II.1.13. Confidentiality Statement**

Vendor shall ensure that personnel involved with any State project are advised of and acknowledge the confidential nature of information contained in State files, the safeguards required, and the criminal and civil sanctions for noncompliance in federal and State statutes. Violation of this provision is grounds for terminating the contract.

#### **II.1.14. Exclusions**

The following exclusions apply to this ITB:

- It is not the intent of State to purchase premise distribution systems (i.e., wiring or cabling) from this contract beyond nominal amounts (not to exceed \$500 in cost) needed for special projects.
- All wiring and cabling must follow the terms and condition of the current **Premise Distribution Systems** contract available via Division of Purchasing.
- Entry of the **Delivery** (see page 1, line 1 of Invitation to Bid) field is not a requirement of this Invitation to Bid and may be left blank.
- Entry of the **General Contractor's License Number** and **Type of G.C. License** fields are not requirements of this Invitation to Bid (see page 1, line 6 of Invitation to Bid) and may be left blank.

### **SECTION III**

#### **III.1. POST AWARD CRITERIA**

##### **III.1.1. Response Time Requirements**

Service requests may exceed the ShoreTel Inc. warranty levels. Therefore, Vendor must list as part of the service catalog, options for supplemental support to the contract user. The contract user's statement of work will determine the need for supplemental support options.

#### **III.1.2. Experience and Certification Requirements**

State may require Vendor to produce up to three (3) references knowledgeable in Vendor's experience providing, installing, or maintaining ShoreTel Inc. telephony products and services. References must include the reference's contact information and dates of service. Referenced work should be similar in size and complexity to State requirements. If requested, within five (5) business days of request Vendor must provide the references requested.

#### **III.1.3. Manufacturer Learning Credits or Free Training**

Vendor must apply for all learning credits or free training that are available to the contract user through the purchase of the manufacturer's products. Any forms or documents required by the manufacturer shall be completed and submitted by Vendor on behalf of the contract user to the respective manufacturer. If Vendor fails to complete the documentation, as required by the manufacturer, Vendor shall be responsible for any monetary losses borne by the contract user.

#### **III.1.4. Vendor Disclosures**

Vendor must reveal any litigation or State or federal sanctions they may be under that could adversely affect Vendor's ability to fulfill its obligations under the resulting contract. Determination that Vendor is under litigation or State or federal sanctions may be grounds for disqualification or contract termination.

#### **III.1.5. Miscellaneous Catalog**

Items in this category are miscellaneous items not in the manufacturer's catalog that will enhance or enable the products and solutions in the manufacturer's catalog to function in a manner beneficial to contract user's needs. If a miscellaneous catalog is necessary from the Vendor, then it must be submitted after award. The catalog must be presented via electronic media (i.e., Web link, flash drive, or CD) and be in searchable PDF, Word, Excel, or Web-enabled format, with all applicable discounts listed.

#### **III.1.6. Training**

Vendor must offer training on the manufacturer's products and services, this includes custom training videos and material as needed, depending on States curriculum and needs. If the manufacturer does not have a catalog line item for training, Vendor must submit a training and training materials production line item in the miscellaneous catalog after the award of contract. Vendor must at times provide technical training and augment state resources and perform knowledge transfer. The contract user will determine and designate the training site(s) per the Statement of Work (SOW).

#### **III.1.7. Force Majeure**

Neither party shall be liable or deemed to be in default for any Force Majeure delay in shipment or performance occasioned by unforeseeable causes beyond the control and without the fault or negligence of either party, including, but not restricted to, acts of God or the public enemy, fires, floods, epidemics, quarantine, restrictions, strikes, freight embargoes, or unusually severe weather, provided that in all cases Vendor shall notify State promptly in writing of any cause for delay and State concurs that the delay was beyond the control and without the fault or negligence of Vendor. The period for the performance may, at State's discretion, be extended for a period equivalent to the period of the Force Majeure delay.

### III.1.8. Invoicing Service Support

Vendor shall provide qualified financial representatives to work with contract user's staff for the successful invoicing and payment of all equipment, software, and services provided by Vendor. If required, Vendor must provide invoicing support.

### III.1.9. Manufacturer's Certification

Awarded Vendors must maintain annual manufacturer's certification. If requested, Vendor must provide proof of certification, satisfactory to State, within five (5) business days of request.

### III.1.10. Discontinued Products

Vendor must notify the contract user within thirty (30) days of any line item being discontinued by the manufacturer during the term of the contract. Vendor shall, if available from the manufacturer, offer an equivalent or superior substitute at or below the original price subject to the review and approval of the contract user.

### III.1.11. Meetings

Vendor may be required to have orientation meetings with ISD. Vendor will participate at no cost to ISD. Vendor also may be required to meet with ISD on a routine basis to discuss contacts with state agencies.

### III.1.12. Timely Performance

Vendor must be able to provide all items ordered according to the following delivery terms and conditions:

#### New Telephony Equipment, or Services

Order (including installation)	Installation / Delivery Interval (Calendar Days)
1 to 100 Items	30 Days
101 to 500 Items	60 Days
Over 500 Items	Individually negotiated

#### Other Systems, Equipment, Software and Other Items (no installation)

Order Size	Non-Installation / Delivery Interval (Calendar Days)
1 to 100 Items	30 Days
101 to 500 Items	60 Days
501 to 1,000 Items	90 Days
Over 1,000 Items	Individually negotiated

National Constraint/Backlog will be the only reason the delivery interval provision will not apply. Vendor must respond, however, to all calls and inquiries in a timely fashion.

**III.1.13. National Constraint/Backlog**

This must be a documented incident by the manufacturer, beyond the control of Vendor, which prevents performance within the required time frames. It does not mean that Vendor is having problems obtaining a product through their normal supply channels, but rather that the manufacturer is having problems delivering certain products. Failure to document National Constraint/Backlog to the satisfaction of the State may result in cancellation of the contract with Vendor.

**III.1.14. Inter-vendor Cooperation**

Vendor shall participate with all State service associates in maintaining the integrity of ISD's voice and data networks. Vendor is required to attend all multi-vendor meetings arranged by ISD to facilitate the resolution of a technical problem associated with the performance of a network.

**III.1.15. Service Personnel**

Servicing a ShoreTel Inc. product must be performed by an approved engineer or technician provided by Vendor or manufacturer or any combination of the two. State reserves the right to review the qualifications of all assigned engineers and technicians, and at its sole discretion, request a replacement at no additional cost to State.

## SECTION IV

### IV.1. SPECIAL PROJECT PROPOSALS (Post Award)

#### IV.1.1. Special Project Proposal Terms & Conditions

Upon request, a Vendor will provide ISD with special project proposals for complete networking or telecommunications solutions using the items listed in the manufacturer's catalog and under the terms of the contract. ISD shall provide a description of the project and desired solution results. If applicable, the description will include, but not be limited to, IP-telephony solutions at sites throughout Alabama. The purpose of the IP-telephony solutions will be to replace existing, aging telephone systems. At a minimum, pricing shall reflect discounts under the terms of the bid. Special projects must include comprehensive pricing for everything necessary to ensure the success of the solution described.

Accordingly, a special project proposal may include any or all of the following specifications:

- Engineering, equipment, network configurations, and changes
- Coordination and interface as needed with various telecommunication carriers
- Interfacing to the existing data and telephone network software
- Strategically developed training based on state provided curriculum
- Installation
- De-installing and proper salvaging of aging hardware and systems
- Delivering the retired equipment to *Alabama Surplus Property*
- Standard and specialized services
- Training as determined by State
- Third party add-ons needed to complete the special project

Special project proposals should include a project schedule, milestones, a project manager name along with contact details, and escalation procedures. Additionally, Vendor shall provide ISD with details regarding any infrastructure upgrades required to deploy the special project solution.

If the proposal is accepted, a Purchase Requisition will be issued. Once the Purchase Requisition is issued, Vendor shall be responsible for completely installing the new system and converting existing services in accordance with the Purchase Requisition and SOW. After installation, Vendor shall provide written notice to ISD of the project's completion and an inventory of all items installed. Inventory must include serial numbers for equipment with a purchase price of \$500 or more.

Prior to payment for the Special Project, ISD must accept the project as completed and fully functional. Risk of loss and ownership of equipment shall not pass until after project acceptance.

## Manufacturer's Networking & Telephony Products & Services ITB (T630 – T640) Questions & Answers

### Questions & Answers: [15-X-2273613 – Telephony Products and Services – ShoreTel®]

1. I'm hoping we can get a modification to the ShoreTel RFP. I hope we can make an adjustment to the items in line item 0001.

- 1) Our Hosted Cloud Unified Communications product is currently called SKY. We should remove the SKY reference from Item 4.
- 2) It may make more sense to break Item 6 out by itself. The way we currently bill our Hosted Product would necessitate ShoreTel respond directly to this section.

Our partners identify the opportunity, then forward to ShoreTel, we then provide the solution and bill. It is my understanding under AL process the Billing would have to come from the Entity winning the line item. If we break it out as Line 0003, we would be the sole respondent... or we can respond to it as 0001 and be one of the 8 awardees.

1. HARDWARE: \_\_\_\_\_% (UC DEVICES, PHONES, CONTROLLERS, ETC)
2. SOFTWARE: \_\_\_\_\_%
3. MAINTENANCE: \_\_\_\_\_%
4. SERVICES: \_\_\_\_\_% (SKY, ETC.)
5. MISCELLANEOUS AND BUNDLES: \_\_\_\_\_% (MANUFACTURER ONLY)
6. CLOUD UNIFIED COMMUNICATIONS: \_\_\_\_\_%

**Answer:** The reference to "SKY" in category 4 of line item 001 will be removed, as requested. The bid will remain as written. Billing is an internal issue between the manufacturer and its authorized partner.

### Questions & Answers: [15-X-2273610 – Networking/Telephony Products and Services – Cisco]

1. Are all these RFP documents for various suppliers related? a. There does not seem to be 1 overall document explaining the scope or project details; is the goal here for the State of Alabama to have a buying vehicle for all vendors?

**Answer:** Each ITB (RFP) is independent and with different specifications. The scope of each ITB is found in Special Terms & Conditions of the ITB under Purpose and in the bid specifications under I.1.1 Purpose.

2. Is there both a Bid Spec and ITB for the Cisco Network & Telephony Products and Services?

**Answer:** The entire bid document is located on the State Purchasing website under the "Open ITBs" tab.

3. If you no bid a specific category under a line item does it disqualify you from that line item?

**Answer:** II.1.5 states the following: "Any form of "no bid" entry for any category will result in disqualification for this entire line item. A blank or space bid will be interpreted and accepted as a zero percent bid for the category."

4. Since there is no ITB document, how are submissions to be made?

**Answer:** The entire bid document is located on the State Purchasing website under the "Open ITBs" tab. Bid submission instructions are located on page 2 of the ITB document.

5. Will every opportunity be sent out to bid among the 8 selected contracted vendors?

**Answer:** Contract users may select one or more awarded vendors to solicit quotes based on the individual users' needs.

6. In order to understand the methodology of awarding the business...if there are 8 qualified vendors per product, how will selections among the 8 be based? b. Will you be going by lowest price only or are there other merits?

**Answer:** Refer to the ITB Standard Terms & Conditions and to II.1.5. Pricing Terms, Conditions, and Award Criteria.

## Manufacturer's Networking & Telephony Products & Services ITB (T630 – T640) Questions & Answers

7. Can you please clarify/explain this statement: The lowest responsible bids for line item one will be evaluated using a matrix that will be released at the bid opening prior to opening any bid response.

**Answers:** Vendors' bids that meet all ITB terms and conditions will be evaluated using a scoring matrix (which will be released at bid opening) to determine if the Vendor's bid is one of the top 8 scores eligible for award recommendation.

8. Can you project the annual volume/spend?

**Answer:** No.

9. 1--What is the deadline for submitting questions regarding this ITB? It is listed as "Friday, 7/6/2015".

**Answer:** Monday, 7/6/2015.

2--This is our company's first time to respond to an ITB. We intend to use your outline "I.1.1", "II.1.3", etc as the appropriate format for a response. Is that correct? Furthermore, we don't use our SOW documents until after being awarded, right?

**Answer:** Yes, that is the preferred response format per II.1.1 Format and Contents. SOW documents are generated by a contract user and will be developed after award.

3--It looks like submission is only via post. Is that correct? There is no digital method to submit the bid? (I'm just making sure that I haven't misread anything.)

**Answer:** Bids must be submitted according to posted terms and conditions, see page 2 of the Standard Terms & Conditions of the invitation to bid – Bid (ITB) Response Instructions.

10. For the Technical Services, do those come from Cisco or from the bid responder? For page 9, is that something you fill out or does the responder? If the responder, can you please provide the formula/s?

**Answer:** The bidding vendor (responder) must submit with the bid a catalog of the listed technical services according to the bid specifications in II.1.5. On or about page 9 of the ITB (pricing page), the percentage discount should be entered in the spaces provided. The unit price column is for State use only. Page totals and bid totals are not required.

**Questions & Answers:** [15-X-2273604 – Brocade; 15-X-2273607 – Juniper; 15-X-2273608 – Adtran; 15-X-2273612 – Polycom]

1. Is bidding on the Technical Services Catalog section a requirement?

**Answer:** No.

Does this section have any bearing on the award of the Products and Services catalog section?

**Answer:** Awards of the Products Catalogs (Network and/or Telephony) are independent of the awards of the Vendor's Technical Services Catalogs (Network and/or Telephony).

Can we still be awarded the Products and Services catalog section if we do not bid on the Technical Services Catalog section?

**Answer:** Yes, the awards are independent, based on the terms, conditions and line item requirements of the bid specifications.

2. Is it acceptable to insert written responses, to particular sections, within the Bid Specification document?

**Answer:** Yes

---

**Questions & Answers:** [15-X-2273609 – Networking/Telephony Products and Services – Avaya]

1. Has Avaya confirmed to The State of Alabama that it is in agreement with its business partners sharing the price books?

**Answer:** Vendor(s) must bid percentage off manufacturer's catalog MSRP for the line item categories as specified in the bid specifications. Pricing categories were obtained from each Manufacturer. Price books are not requested. Vendors must be active, certified resellers of the manufacturer's products and services on which they bid.

## Manufacturer's Networking & Telephony Products & Services ITB (T630 – T640) Questions & Answers

2. Avaya provides special price promotions for certain products but these are valid for a specified period of time, usually a few months and can change. What is the period of validity of the pricing that The State of Alabama is expecting?  
**Answer:** Special price promotions are acceptable, but must be offered to all contract users throughout the life of the promotional term.
3. Within the Avaya price books, individual products are assigned to a material product group ( MPG ) and discounts are applied at the MPG level. Within a price book such as Unified Communications there will be several MPGs and thus more than one discount level. We cannot therefore respond to the ITB with a single discount level per price book as requested. Please advise how this should be addressed.  
**Answer:** Provide a single percentage discount off MSRP to the appropriate categories in II.1.5 per bid specifications.
4. In section II.1.5 what is meant by the terms WFO and non-WFO in the maintenance services?  
**Answer:** WFO: work-force optimization; non-WFO: non work-force optimization
5. For the ITB response to be considered valid do we need to respond to all the line items or is it permissible to respond to selected line items?  
**Answer:** See II.1.5 Pricing Terms, Conditions, and Award Scoring Criteria; Vendor must bid according to the bid specifications. Vendor must bid on at least one of the four line items outlined in this ITB.
6. In section II.1.5 – travel expenses – The State will not reimburse travel expenses. Does this mean that additional travel expenses over and above those included in the technical services hourly rate will not be reimbursed?  
**Answer:** Yes.
7. In section IV.1.1 Special Project Proposals it says that these should include a project manager name. However it is not stated anywhere that separate project manager hourly rate should be provided. Should we therefore include PM pricing into the engineer / associate / technician hourly rate?  
**Answer:** The State does not anticipate a vendor's technical services catalog will be restricted to the required categories stated in II.1.5 for line items two and four (i.e., Vendor's Technical Services Catalog). It is the vendor's choice to include project manager pricing in the Vendor's Technical Services catalog.
8. Periodically, Avaya notifies its business partners of price increases, normally with 60 days notice. Are you expecting the business partner to pass these modified price books on to you and if so within how many days of our receipt from Avaya?  
**Answer:** Pricing is tied to the manufacturer's catalog, only. Discounts will be applied to the catalog prices per bid specifications and awarded contract. See II.1.7 Catalog Updates and Access for additional clarification.
9. If a substitute item for a product that has been discontinued is not available at an equal or lower price will you accept the higher priced replacement?  
**Answer:** The manufacturer may modify catalog products and prices, as necessary; but State must be notified per Section III.1.10 Discontinued Products.
10. In section II.1.1 and II.1.4 it states that we would be required to attend meetings. Do these need to be on-site or is it acceptable to attend these meetings remotely via teleconference?  
**Answer:** Sections II.1.1 and II.1.4 do not refer to meetings. See III.1.11 Meetings, State will provide meeting terms, as required.
11. In section II.1.10 it states that software updates must be included at no extra cost. This is an option within the Avaya maintenance services called Upgrade Advantage and is separate from the product pricing. As it cannot be provided at no extra cost how should this be addressed in the response?  
**Answer:** Section II.1.10 applies to warranty services only, not to catalog maintenance services. See II.1.10 Warranty Requirements.
12. In section IV.1 – would we be required to provide a proposal response to all special project proposals or are we able to decline to bid if we choose on a case by case basis?  
**Answer:** Vendor may decline.
